<p>A person started three meters away from Mr. Franklin and walked quickly away for 3 seconds. The person stood still for 8 seconds and then walked quickly back towards Mr. Franklin for 3 seconds.</p>	<p>Tristan filled up his gas tank with gas that cost \$3.54 per gallon.</p>	<p>Tracy filled up her tank with gas that cost \$2.05 per gallon.</p>	<p>Alex was driving through a town that had a speed limit of 35 miles per hour. As soon as he passed the town's limits, the speed limit increased so Alex sped up at a constant rate.</p>
<p>John drove his car at a constant speed and then slowed down and stopped at a stoplight. When the light turned green, he sped up until he returned to his previous speed.</p>	<p>Ashley took off from a stoplight and rapidly increased her speed until she saw another stoplight. When she saw the next stoplight, began slowing down. As she approached the light, it turned green so she increased her speed again.</p>	<p>Amber was driving when she was began approaching railroad tracks so she slowed down. As soon as she crossed the tracks, she increased her speed again until she approached a stop light and slowed down.</p>	<p>Someone started 3 meters away from Mr. Franklin and slowly walked away for 8 seconds. The person stood still for 3 seconds and then walked quickly towards Mr. Franklin for 4 seconds.</p>
<p>A brand new candle burned at a constant rate until it had completely melted.</p>	<p>A bucket had 2 cups of water in it and was filled at a constant rate.</p>	<p>Someone started 4 meters away from Mr. Franklin and walked slowly towards him for 8 seconds. The person stood still for 3 seconds and then walked quickly away from Mr. Franklin for 4 seconds.</p>	<p>John took off from a stop light and increased his speed until he reached the speed limit. He kept his speed right at the speed limit until he passed a sign saying the speed limit had increased so he sped up again.</p>
<p>Thomas slowly increased his speed until he reached the speed limit. After he reached the speed limit, he drove his car at a constant speed.</p>	<p>A kiddie pool was being filled with water until it reached its maximum capacity. It stayed full for the weekend until it developed a leak and was slowly emptied.</p>	<p>A penny jar that started with 200 pennies was slowing being added to. For a few days, no pennies were added. Eventually, money was taken away from the jar so Will could buy balloons every day. Will got sick of balloons and didn't want any more so the penny jar stayed at the same height.</p>	<p>Ava was speeding along the highway when a state trooper pulled up behind. She slowed down abruptly but unfortunately it was too late! She slowed down and pulled over to the shoulder and got her first ticket ☹</p>
